

Cal-Mag

Product No: 7655

Ingredients: Each 1000 mg. Tablet contains - Calcium Carbonate 400 mg., and Magnesium Oxide 285 mg., plus excipients.

Size: 60

Calcium, an essential mineral that contributes to the formation of strong bones and teeth, diminishes with age in both men and women. Calcium carbonate contains the highest level of calcium. Magnesium Oxide, an essential micro-mineral, increases the effectiveness of calcium.

Osteoporosis is characterized by a dangerously high rate of bone loss, which contributes to:

- Hip and back pain
- Curvature of the back
- Premature wrinkling of skin
- Fractures

Supplementing calcium in the diet could help prevent this damage.

60 Tablets
